

Buy Now, Pay Later Layout Improvements

We have improved the layout of the Buy Now, Pay Later configuration page to make it easier to find and configure your desired payment feature.

Step-by-step guide

- 1. In the CMS, navigate to Settings Feature Management Payment & Checkout
- 2. Locate Buy Now, Pay Later and click Configure.

- 3. In previous versions, all the payment options were on the one page.
- 4. We gave you the option to click to each payment option from the top. However, if you were further down the page, you had to either scroll to the top to click the link for another payment option, or you had to scroll through to find the one you were after.
And they weren't in alphabetical order! That was a lot of scrolling.

6. Changes to the Buy Now, Pay Later configuration screen include:

Change	Description	Image
Provider description	We have included a brief description of each Provider's functionality above the provider configuration tabs, so you know what payment method would suit your site and your customers.	

Provider tabs	We have tabbed each of the payment options so you don't have to scroll, scroll, scroll.	
Need help?	We have moved the 'Need help' configuration message to the top of the page.	
Test Settings	Each provider tab has a 'Test Settings' button so you can validate your configuration.	

Additional Information

 Refer to our Buy Now, Pay Later provider knowledge base articles for instructions on how to configure the payment options.
