## Where can the Widget be placed?

The widget can be used in the following templates:

- Article List Page Template
- Article List All Template

## Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommend this field be updated so the widget's purpose is clear at a glance from the template page.	All
Layer	The layer the widget is valid for.	<p>The <a href="#">layering technology</a> allows for the content to be shown to specific audiences.</p> <p>This is handy if the content is only valid for a certain type of user or if the same widget is required for more than one audience but different configurations are needed.</p> <p>The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.</p>	All
Table Name	The name of the table filtered against	<p>Default: Article</p> <p>Leave as the default unless customisation has been done for this feature.</p>	4.23
Data Source Name	Name of Data source for filtering	<p>Default: ArticleList</p> <p>Leave as the default unless customisation has been done for this feature.</p>	4.23
Meta Data Filter Label	Text for the features filter label	<p>Default: 'Filter by'</p>	4.23
