

Login / Logout Popup Widget

(Formerly known as the Login Logout Modal widget)

Widget Use

Renders login functionality in a modal window, rather than navigating the user to a login page.

Example of Widget Use

Where can the Widget be placed?

The widget can be used in the following templates:

- Theme Layout Template

Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommend this field be updated so the widget's purpose is clear at a glance from the template page.	All
Layer	The layer the widget is valid for.	The layering technology allows for the content to be shown to specific audiences. This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience, but different configuration is needed. The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.	All
Show Forgot Password?	Determines whether the password reset link is displayed in the modal window.	Default is: ticked Untick to disable	3.86
Show Remember Me?	Determines whether the remember me tickbox is displayed.	Default is: ticked Untick to disable	3.86

Render Login Logout Modal Page Template	Determines whether content from the Login Logout Modal Page template is rendered in the modal window.	Default is: ticked Untick to disable Note - if your Login Logout Modal Page template is empty, you should disable this option. Otherwise, a shaded area will display without any content.	3.88
Stay on Current Page after Login?	Keeps the user on the page they were viewing pre-login (instead of redirecting to the home page or other default behaviour).	Default is: unticked Tick to enable	3.91
Titles			
Modal Header	The heading text for the top of the modal window.	Default is: Login	3.86
Third Party Login Buttons Heading	The heading text displayed above the third party login buttons (e.g. Google Sign-In).	Default is: Login with a social network	3.95
Email Login Heading	The heading text displayed above the user ID/email login fields.	Default is: Login with email	3.95
Notifications			
Password Requires Change Message	The notification displayed when the user must change their password.	Default is: You are required to change your password	3.86
Password Changed Message	The notification displayed when the user has successfully changed their password.	Default is: Password changed	3.86
Enter Password Message	The notification displayed when the user clicks the 'Change Password' button without actually entering a new password.	Default is: Please enter a password	3.86
Buttons			
Modal Login Button Text	The text displayed on the login button in the modal window.	Default is: Login	3.86
Login Button Icon	The icon displayed on the login button in the modal window.	Default is: cv-ico-general-user	3.86
General Login Button Text	The text displayed for the login link in the site header.	Default is: Login	3.86
Logout Button Text	The text displayed for the logout link in the site header.	Default is: Logout	3.86
Logout Button Icon	The icon displayed next to the logout link.	Default is: cv-ico-general-user	3.86
Forgot Password Button Text	The text displayed for the password reset link.	Default is: Forgot Your Password?	3.86
Forgot Password Icon	The icon displayed next to the password reset link.	Default is: cv-ico-general-lock	3.86
Change Password Button Text	The text displayed on the change password button.	Default is: Change Password	3.86
Change Password Button Icon	The icon displayed on the change password button.	Default is: cv-ico-general-cycle	3.86
Prompts			
User Name Prompt	The label displayed above the username / email address input field.	Default is: Username / Email	3.86
User Name Placeholder	The placeholder text displayed in the username / email address input field.		3.86
