# **Braintree Google Pay Settings**

#### (i) Braintree Payments

Refer to the documentation on Braintree Payments for other help topics.

CV ecommerce Braintree Payments gateway is integrated to accept Google Pay. Google Pay allows users to make contactless payments online and with Android phones, tablets or watches. Your business must have a Google Pay account set up and Google Pay must be enabled in your Braintree account.

NOTE - Google Pay is available in Google Chrome v61 or higher on Android. If Google Pay is not supported by the customer's browser, the option to select Google Pay will not appear.

### Gin Sandbox testing

For Sandbox testing, Google Pay requires a real credit card. However, no funds will be taken from the card during processing and the card is not saved.

### Configure Google Pay Settings

To configure Braintree Google Pay Settings:

	Feature Management				Q Search for a feature
	🖌 Content 💿 🔾	Feature		Available in CMS	Options
	🚯 Payment & Checkout 🤨 🔸	Braintree Payment Configure Braintree payment related settings.	(		O Configure
