Braintree Apple Pay Settings

(i) Braintree Payments

Refer to the documentation on Braintree Payments for other help topics.

Commerce Vision's Braintree Payments gateway is integrated to accept Apple Pay. Apple Pay allows users on certain Apple devices to make payments. Your business must have an Apple Pay Merchant account set up and Apple Pay must be enabled in your Braintree account.

NOTE - Apple Pay is available in Safari on iOS version 10+ and macOS version 10.12+. If Apple Pay is not supported by the customer's browser, the options to select Apple Pay will not appear.

Sandbox testing
 For Sandbox testing, refer to Apple's Sandbox Testing documentation for details.

Configure Apple Pay Settings

To configure Braintree Apple Pay Settings:

Feature Management				Q. Search for a feature
🖋 Content 🐵 🔸	Feature		Available in CMS	Options
Pøyment & Checkout	Braintree Payment Configure Braintree payment related settings.			O Configure
Products & Categories 🕕 🕥 🗲	Ruy Now Pav Later			
2. If the Available in Cl	IS toggle is not enal	oled, toggle it ON.		
3 Click Configure				
o. onor comigure.				
4. Scroll down to Apple	Pay Settings.			
5. Toggle ON Enable A	pple Pay.

The User clicks on Apple Pay and an Apple Pay button is displayed. Payment Payment Methods Credit Card BPa ► 🕯 Pay Apple Pay **∉**Pay Choose another way to pay

The User clicks the Pay button and any saved cards in the User's Apple Pay Wallet are displayed for selection. A new card can also be entered. Once a card is selected, the User undergoes any required security check, e.g., entering their Passcode.
