Braintree Apple Pay Settings

> **ⓘ Braintree Payments**
>
> Refer to the documentation on Braintree Payments for other help topics.

Commerce Vision's Braintree Payments gateway is integrated to accept Apple Pay. Apple Pay allows users on certain Apple devices to make payments. Your business must have an Apple Pay Merchant account set up and Apple Pay must be enabled in your Braintree account.

NOTE - Apple Pay is available in Safari on iOS version 10+ and macOS version 10.12+. If Apple Pay is not supported by the customer's browser, the options to select Apple Pay will not appear.
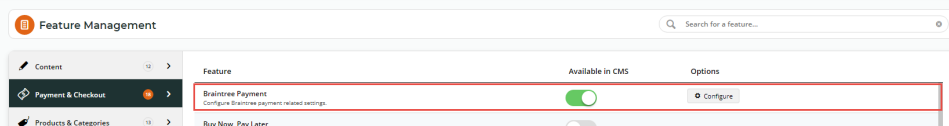

> **ⓘ Sandbox testing**
>
> For Sandbox testing, refer to Apple's Sandbox Testing documentation for details.

Configure Apple Pay Settings

To configure Braintree Apple Pay Settings:

1. Navigate to **Settings Payment & Checkout Braintree Payment**.

2. If the **Available in CMS** toggle is not enabled, toggle it ON.
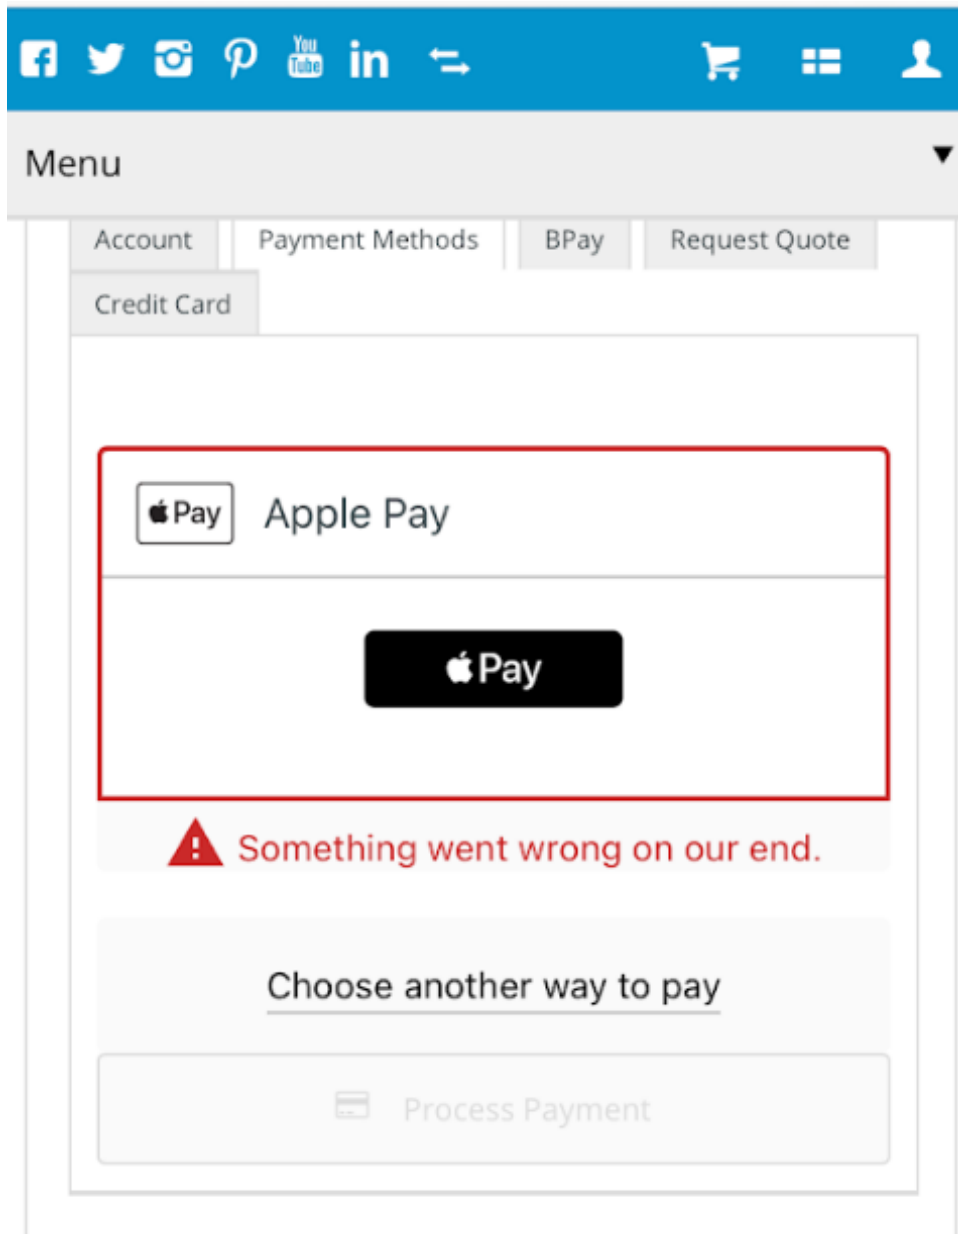

3. Click **Configure**.

4. Scroll down to **Apple Pay Settings**.

5. Toggle ON **Enable Apple Pay**.

6. In **Apple Pay Display Name**, enter a meaningful name for your store. **NOTE -** If this is left blank, the User will see an error message and cannot use Apple Pay.

7. To save your settings, click **Save**.

ⓘ **When Apple Pay is enabled on your site...**

In the Payments panel during checkout, 'Apple Pay' displays as an option under Payment Methods.
