Export Cart to Excel

Overview

An Export to Excel button can be added in the shopping cart to allow users to have their cart contents emailed to them in an Excel file. The file will include a product image for each cart item, if available. This feature is useful for customers who do not want to check out immediately but need a record of their cart's contents.

The out-of-the-box solution provides a default Excel template. All you have to do to enable the feature is add the Excel Export Button widget to the Cart template. You can also choose to use a custom-designed Excel template. This alternative requires consultation with Commerce Vision.

How it works

Your Website User has added products to their Cart. While in the Cart page, they do not want to checkout and place their order immediately. They can select the Export to Excel button instead to have a record of the cart contents emailed to them. They simply select the 'Export to Excel' button. (**TIP** - You can rename this button if you like.)

	Notify Me When In S	ock 📓 Save As Template 🛛 Hold Order 🖉 Upd		
		ock Save As template II hold Urder 10 upd	late Order 🛛 🗑 Remove All 🛛 🤧	Request Quote
	Qty	Price (incast)	Unit	Total (net
, Medium	100 ± Ø Add Note	\$15.95 O Update O Remove O Notify Me Who	DOZE en Back in Stock	\$1,595.0
Notes Notes			Add To C	lart
		Subtonal (inc GST)	• Add To C	Cart \$1,595./
	Medium	Medium 100 ±	Medium 100 2 \$15.95	Medium 100 ± \$15.95 DOZE

In the popup dialog, they enter their email address and confirm they want the email sent.

\odot	Captcha			
You have the option of adding a reCAPTCHA v2 check in the dialog to prevent spam and abuse. If present, the User will be be subject to reCAPTCHA's checking process.				
	Depending on risk assessment results, they will be asked to:			
	 tick the "I am not a robot" checkbox, tick the "I am not a robot" checkbox and complete a challenge, or do nothing, with the request validated in the background.

An email with the attached Excel file of cart contents is sent. The default image of each product is included, if available. **NOTE -** If a product image is not available (e.g., no image or incorrect path), an 'image unavailable' message is shown against the product.

Step-by-step

NOTE - These steps are for the out-of-the-box version only. For the custom solution, please contact Commerce Vision.

To enable this feature, the **Excel Export Button Widget** has to be added to the Cart template. In the widget, you can customise the text displayed on the button, popup dialog and email message. You can also add and configure the reCaptcha service.
